

CONVEYOR BELT PRODUCTS

Quality products to increase your productivity
and reduce your downtime

EPG manufactures a broad range of conveyor equipment at our modern workshops that ensure the highest quality standards and consistency.

Our manufacturing starts with CNC machines, enabling the accuracies and tight tolerances crucial to ensuring operational performance.

We manufacture at our two workshops in the Northern Cape and Rustenburg.

Our products are available at our Northern Cape, Rustenburg, Mogwase & Thabazimbi branches. We distribute nationwide.

OUR RANGE

IDLERS & ROLLERS

GARLAND ROLLERS

PULLEYS

IMPACT BEDS

H-FRAMES

SCRAPERS

NIP GUARDS

SELF-ALIGNMENT UNITS

CONVEYOR FRAMES

STRINGERS

PARTS & MAINTENANCE

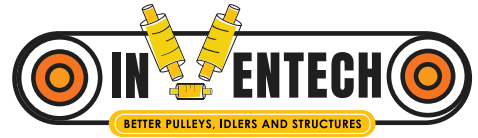

V-Return Roll 127mm OD x 3.8mm Thickness x 25mm & 30mm Shaft

Belt Width	Roller Face
600	300
750	400
900	475
1050	560
1200	635
1350	720
1500	800
1650	885
1800	965

Impact Roll 133mm OD Rubbers x 25mm & 30mm Shaft

Belt Width	Roller Face
600	240
750	290
900	340
1050	390
1200	450
1350	500
1500	560
1650	610
1800	660

OUR IDLER RANGE

Impact Roll 133mm & 152mm OD Rubbers x 25mm Shaft

Belt Width	Roller Face
600	240
750	290
900	340
1050	390
1200	450
1350	500
1500	560
1650	610
1800	660

A 3D rendering of three different idler roller assemblies. The first assembly on the left is a large, heavy-duty unit with a wide, flat rubber roller mounted on a robust metal frame. The middle assembly is a smaller unit with a similar design but a slightly different frame structure. The third assembly on the right is a more compact unit with a coiled spring mechanism integrated into its frame, likely for tensioning the belt.
